About the California Civic Engagement Project (CCEP)

The California Civic Engagement Project (CCEP) is part of the University of Southern California Sol Price School of Public Policy in Sacramento. The CCEP conducts research to inform policy and on-the-ground efforts for a more engaged and representative democracy, improving the social and economic quality of life in communities. The CCEP is engaging in pioneering research to identify disparities in civic participation across place and population. Its research informs and empowers a wide range of policy and organizing efforts aimed at reducing disparities in state and regional patterns of well-being and opportunity. Key audiences include public officials, advocacy groups, media and communities themselves. To learn about the CCEP's research, or review the extensive coverage of the CCEP's work in the national and California media, visit our website at <https://ccep.usc.edu>
